Indore, India

## SUMMARY

I'm a software developer with experience building web applications, APIs, and cloud-based solutions. I enjoy designing systems that run smoothly and scale well. I like working with different teams, learning new technologies, and finding practical ways to solve problems. My focus is on writing clean, efficient code and creating software that makes a real impact.

## EXPERIENCE

### Mindpath Tech

Software Developer

June 2023 - Present / Indore

- Developed 200+ RESTful APIs, improving backend efficiency.
- Integrated Azure cloud services, leveraging Azure Functions and Processors to enhance scalability.
- Implemented CI/CD pipelines via Azure DevOps, reducing deployment time.
- Designed and developed web applications using static rendering, EJS, and modern frameworks.
- Used Docker for containerization, ensuring cross-environment consistency.
- Collaborated with cross-functional teams and directly communicated with clients to optimize project outcomes.

### Mindpath Tech

Software Developer Trainee

Dec 2022 – June 2023 / Indore

- Built and optimized RESTful APIs for better backend performance.
- Worked with Azure Functions and Processors for scalable solutions.
- Set up CI/CD pipelines using Azure DevOps.
- Developed web apps with EJS and modern frameworks.
- Used Docker for consistent deployments.
- Collaborated with teams and clients effectively.
- Improved debugging and problem-solving skills.
- Gained experience with agile methods and Git.
